## Report

The ITC met before the annual meeting in Franklin, Tennessee. It had come to the attention of the Committee that several states are in the process of hiring new inspectors. To that end, the Committee is exploring the possibility of ASPCRO stepping into the role of trainer to assist states with new hires. It was proposed that a survey be sent to the states inquiring about their training needs and if they would be interested in sending new hires to a one-day inspector training hosted by ASPCRO just before the next annual ASPCRO meeting in Minneapolis, MN. The training topics would cover areas of interest not normally covered by state lead agencies.

A draft survey, approved by the committee, was sent to the Board for their comments. Once finalized, the survey will be sent to the state lead agencies to see if there is an interest and what additional training topics they believe should be covered. If there is enough interest, the Planning Committee will arrange for the training venue and training topics will be developed.
