Subject: TLRC Committee Report

John,

Here's my committee report for the TLRC.

Since the 2010 annual meeting, the TLRC has

1. Submitted comments on the draft termiticide performance standard that the Termiticide Standards Committee is developing.
2. Participated in a workshop with TSC to discuss comments received by various parties on the draft standard. Many of the TLRC's comments have since been incorporated in the TSC's latest draft.
3. Reviewed a label revision for a currently registered bait product. Submitted comments to the EPA.
4. Been contacted by two registrants to discuss revisions to each company's existing product label.
5. Worked with the outgoing president and incoming president to fill two vacancies on the committee. (Jim Wright/Derrick Lastinger)- Bonnie Rabe (NM) and John Dalley (NC)

No new product registration reviews were requested of TLRC, since August 2010.

Davis H. Daiker

Chair- Termiticide Label Review Committee
