

Green Building Standards Committee Report
ASPCRO Mid Year Board Meeting
March 2013
Fort Lauderdale, Florida

Mission Statement:

The purpose of this committee is to:

The Committee will review and propose revisions, as appropriate, for green building rating systems, such as LEED Credits, that affect structural pest management, and develop and provide training and resource materials for green building rating system stakeholders and pest management professional for the implementation of those credits.

Activities:

Held first meeting at ASPCRO Annual Meeting in Seattle in August 2012.

No subsequent meetings.

Presented results of recommendations on LEED Standards to Pestworld, October 2012 in Boston.

Recommendations on LEED standards have been developed and accepted as part of the LEED V4 standards, and will be part of the balloting to begin this year.
