Termiticide Label Review Committee
2012 ASPCRO Mid-Year Board Meeting Report

The ASPCRO Termiticide Label Review Committee (TLRC) submits the following report for the 2012 mid-year Board meeting.

During the August 2011 annual meeting, the TLRC met with three different registrants to discuss significant changes to their respective, actively registered labels. In some cases, the TLRC was also presented with performance data.

In October 2011, the committee submitted formal comments to the registrant, and eventually to EPA, in response to 2 of the 3 meetings in August. In the third, case the registrant was only educating the TLRC on the revisions and seeking input from the committee. The TLRC prepared no formal comment for the agency or the registrant. From October to the current, the committee has not met further with any pesticide registrant. Nevertheless, the TLRC continues to have internal, informal discussions related to one of these product label revisions, and has reviewed two of EPA's summary reports on the data supporting those revisions.

Respectfully submitted,

Davis Daiker, Chair
