RUP CONCERNS

- Common misconceptions about professional pest control + RUPs
- Delays + existing backlogs
- Rewire business operations + staffing
- Price increases

ZOOMING OUT

- Upcoming registration reviews
- Impacts to vulnerable communities
- Urban rodent control + endangered species

KEY TAKEAWAYS

- All professional structural applicators need rodenticides in their toolbox
- We need to get this right the first time
- ESA mitigations need to reflect applicator + SLA limitations

Thank you, ASPCRO!
